COMPANY OVERVIEW

BrandFox Integrated Services is a Nigerian engineering and procurement solutions provider specializing in Fire Protection Systems, Gas Detection Technologies, Industrial Material Supplies, Laboratory Chemicals, and Safety Engineering Solutions.

We deliver design, procurement, installation, commissioning, and post-deployment support using internationally certified technologies aligned with NFPA, OSHA, ISO, and British Standards.

Our teams are made up of trained engineers, certified technicians, and procurement professionals who bring decades of combined experience into operational excellence, compliance-based engineering, and safety-driven project execution.

CORPORATE PHILOSOPHY

We believe that safety is not an option — it is a responsibility.

Our philosophy is anchored on three pillars:

- 1 Protection — safeguarding people, assets, and operational continuity.
- 2 Precision — executing engineering solutions with accuracy, data, and international standards.
- 3 Partnership — building relationships that enable the long-term success of our clients.

BrandFox does not deliver products; we provide systems that prevent disasters, reduce financial exposure, and secure operational environments.

VISION STATEMENT

To become Africa's most trusted provider of integrated fire protection, safety automation, and industrial procurement solutions.

MISSION STATEMENT

To deliver globally compliant, innovative, and reliable engineering and safety solutions that protect people, preserve assets, and enable uninterrupted operations.

CORE VALUES

INTEGRITY

We operate transparently and ethically in every transaction.

Our systems work consistently and deliver measurable results.

RELIABILITY

COMPETENCE

Certified professionals and continuous technical improvement.

We exist to prevent accidents, loss, and environmental hazards.

SAFETY

INNOVATION

Deploying modern, intelligent systems that anticipate risks.

We create sustainable, mutually rewarding relationships.

CLIENT PARTNERSHIP

BUSINESS FOCUS AREAS

BrandFox provides solutions in six core domains:

Integrated Fire Protection Systems

Electrical & Industrial Procurement Solutions

Safety Engineering Services

Laboratory Chemical & Reagent Supply

Gas & Flame Detection Technologies

Industrial Supplies

Each business line is structured as an independent service unit but interconnected through a unified operational and engineering framework.

SERVICE PORTFOLIO

BrandFox delivers systems, tools, and engineering infrastructure required to prevent, detect, contain, and extinguish fire-related incidents in complex environments.

Our service scope covers:

- Fire alarm systems.
- Detection and notification solutions.
- Suppression technologies.
- Industrial and laboratory procurement.
- Electrical and safety component supply.

OUR COMPETITIVE ADVANTAGE

BrandFox stands apart based on:

- ❖ Certified engineers & safety professionals
- ❖ End-to-end delivery (design - procurement - installation - training - maintenance)
- ❖ Alignment with NFPA, ISO, UL, OSHA, BS, and Nigerian Fire Code
- ❖ Direct partnerships with OEMs
- ❖ Rapid response support and lifecycle maintenance
- ❖ Sector-based customization and project adaptability

FIRE ALARM DETECTION SYSTEMS

We design and deploy advanced fire alarm detection tools using addressable and conventional technologies. Our systems reduce detection time, enable evacuation, automate response, and increase regulatory compliance.

Solutions Provided

Smoke, heat, CO.

FIRE SUPPRESSION SYSTEMS

We deploy autonomous systems that extinguish fires without human intervention using:

- FM-200
- Novec 1230
- CO
- Foam systems
- Inert gas systems
- Wet chemical kitchen suppression.

Each system includes agent calculation, enclosure testing, monitoring, and commissioning.

GAS & FLAME DETECTION SYSTEMS

In high-risk industrial environments, gas leaks or flame ignition can cause catastrophic damage. BrandFox provides infrared, UV, optical, and portable detection systems with automatic isolation and shutdown protocols.

SPRINKLER SYSTEMS

BrandFox supplies, installs, and maintains:

- Wet, dry, deluge, and pre-action sprinklers
- NFPA-compliant design
- Hydraulic testing and integration
- Industrial, commercial, and residential rollout

PROCUREMENT & INDUSTRIAL SUPPLY

We provide certified materials used in laboratory, industrial, engineering, and construction environments. Our sourcing channels ensure quality, authenticity, and competitive pricing.

QUALITY, STANDARDS & AFTER-SALES SUPPORT

BrandFox adheres to National and International Standards:

- NPFA
- OSHA
- ISO
- British Standards
- UL
- Nigerian Fire Code

We provide:

Preventive
